

other hand, Germany will gladly co-operate in all efforts to prevent future wars.

Freedom of Seas.

The freedom of the seas being a preliminary condition of the free existence of nations and the peaceful intercourse between them as well as the open door for the commerce of all nations, has always formed part of the leading principles of Germany's political program. All the more the imperial government regrets that the attitude of her enemies who are so entirely opposed to peace makes it impossible for the world at present to bring about a realization of these lofty ideals.

Germany and her allies were ready to enter now into a discussion of peace and had set down as basis the guaranty of existence, honor and free development of their peoples. Their aims, as has been expressly stated in the declaration of 12, 1916, were not directed toward the destruction or annihilation of their enemies and were according to their conviction perfectly compatible with the rights of the other nations.

As to Belgium, for which warm and cordial sympathy is felt in the United States, the chancellor had declared only a few weeks previously that its annexation had never formed part of Germany's intentions.

The peace to be signed with Belgium desires to maintain friendly neighborly relations, that Belgium should not be used again by Germany's enemies for the purpose of instigating continuous hostile intrigues. Such precautionary measures are all the more necessary as Germany's enemies have repeatedly stated not only in speeches delivered by their leading men but also in the statistics of the economic conference in Paris that it is not their intention to treat Germany as an equal even after peace has been restored, but to continue their hostile attitude, and especially to wage a systematic, economical war against her.

Tells Why Peace Failed.

The attempt of the four allied powers to bring about peace has failed owing to the lack of conquest of their enemies, who desire to dictate the conditions of peace. Under the pretence of following the principles of nationality our enemies have disclosed their real aims in this way, viz.:

To demoralize and disorganize Austria-Hungary, Turkey and Bulgaria. To the wish of reconciliation they oppose the will of destruction. They desire a fight to the bitter end.

A new situation has thus been created which forces Germany to new decisions. Using her naval power for a criminal attempt to force Germany into submission by starvation. In brutal contempt of international law the powers led by England do not only curtail the legitimate trade of their opponents, but they also by ruthless pressure compel neutral countries either to altogether forego every trade not agreeable to the entente powers or to limit it according to their arbitrary decrees.

The American government knows the steps which have been taken to cause England and her allies to return to the freedom of the seas. The English government, however, insists upon conducting its war of starvation which does not at all affect the military power of its opponents but compels women and children, the sick and aged to suffer and their country pains and privations which endanger the vitality of the nations.

Each Day Brings Suffering.

Through British tyranny mercilessly increasing the suffering and death of innocent to the laws of humanity, indifference to the protests of the neutrals whom they severely condemn, indifference even to the silent longing for peace among England's own allies. Each day of the terrible struggle causes new destruction, new sufferings. Each day brings more and more on both sides preserve the life of thousands of brave soldiers and a benefit to mankind.

The imperial government could not justify before its own conscience, before the German people and before history the neglect of any means destined to bring about the end of the war. Like the president of the United States, the imperial government had hoped to reach the goal by negotiations. After the attempt to come to an understanding with the entente powers had been answered by the latter with the announcement of an intensified continuation of the war, the imperial government had to serve the welfare of mankind in a higher sense and not to wring its own people, is now compelled to continue the fight for existence against those who deny the full employment of all the weapons which are at its disposal.

Sincerely trusting the people and government of the United States will understand the motives for this decision and its necessity, the imperial government hopes that the steps open to the United States are the calling of a conference of neutral nations to end the blockade or the taking of some step which speedily would result in peace.

Information received from the same source is that Admiral von Tirpitz or his warships are absolutely nothing to do with the new policy. On the contrary, it was said tonight that Von Tirpitz was not, as has been heretofore supposed, removed from office because he advocated ruthless submarine warfare. The fact, according to this information, was that he was depressed because he did not actively carry out the campaign he inaugurated.

From German quarters tonight came the information that Germany has a fleet of 300 to 500 submarines ready for the campaign.

May Bring Early Peace.

The German view is that the new policy will improve general prospects for an early peace. Germany is represented as still being ready to discuss peace at any time. However, it is declared that German officials both in this country and in Berlin feel that the declaration of changed policy should make it clear that Germany and her allies are in the way to the last drop of blood.

Unrestricted submarine warfare, it was declared, was determined as soon as the nature of the entente reply to Von Tirpitz's note became known and before the president's address to the senate. The president's address, it was said, authoritatively, came in the midst of the situation and because of its nature, it appeared for a time as if the new campaign might be postponed. However, it was explained that much preparation was necessary for the opening of such a campaign and nothing was gained by waiting.

It is believed here that the policy was decided upon at a recent conference at the headquarters of the German general staff and that Field Marshal von Hindenburg played a most important part in its formulation.

It is expected that Austria-Hungary will take action similar to that of Germany with regard to the operations of its submarines in the Mediterranean.

OHIO UNIVERSITY MAY GET STADIUM.

Columbus, Ohio, Jan. 31.—Agitation for the erection of a new athletic stadium has been started at the Ohio State university. Prof. Thomas E. French of the department of engineering drawing has provided plans for a modern concrete stadium, which would have a seating capacity of 50,000. It is modeled after the University of Chicago stadium, parts of which have been constructed.

According to the plans, a concrete stand, with a seating capacity of 18,000 would be erected and as more funds become available, a similar stand would be built on the opposite side of the field. The stands would be erected at both ends.

The plans also provide for a quarter-mile running track and a 220-yard straightaway. The football field also would be used for baseball. The alumni are reported to be much interested in the proposition and are discussing plans to subscribe funds to start the project.

NEW YORK PORT ORDERED CLOSED

By Associated Press.

New York, Jan. 31.—Orders were issued tonight to the torpedo boat stationed at quarantine to preserve neutrality, not to permit any vessel either neutral or flying the flag of one of the belligerents to pass out tonight.

The order applied not only to steamships but to tugs. Several tugs which passed quarantine early in the evening before the order was issued were compelled to return to port.

Commander Upham, aide to Admiral Usher, commander of the New York navy yard, declined tonight to comment in any way upon the order.

It was learned late tonight that the order closing the port of New York was issued by Dudley Field Malone, collector of the port in whom is vested absolute authority and sole responsibility for the maintenance of the neutrality of this port.

At midnight twenty patrolmen were dispatched to the dock at the Hudson river and 130th street, where five Hamburg-American line steamships and German-American line steamships were held in reserve in stations as far north as Spuyten Duyvil. The officers were not told what their duties were to be.

SAILORS DENIED SHORE LEAVE.

Germans on Interned Boats Kept in Readiness.

Philadelphia, Jan. 31.—Orders were issued tonight by Captain Russell, commander of the Philadelphia navy yard, saying shore leave until further notice to the sailors of German cruisers Prinz Eitel Friedrich and the Kronprinz Wilhelm, interned at the navy yard. There are about 700 men aboard the two boats and they have been granted shore leave twice a week.

lend to imply that the maintenance of its policy is in any way contingent upon the course or result of diplomatic negotiations between the government of the United States and any other belligerent country, notwithstanding the fact that certain passages in the imperial government's note might appear to indicate that the United States is in completing the declaration that there must be no misunderstanding that rights of American citizens must not be subjected to the conduct of some other government, the note concluded by saying:

Responsibility in such matters is single, not joint; absolute, not relative."

The developments today came as a surprise to the public, but they are authoritative and almost semi-official statements have been coming from Berlin since the beginning of the war, indicating that the United States is to resume unrestricted submarine warfare. The complete agreement of the emperor, chancellor von Bethmann-Hollweg, General von Hindenburg and Admiral von Ludendorff, the four men in whose hands Germany's destiny lies, has been mentioned frequently in dispatches passing the censor.

ALLIES PREPARED FOR NEW WARFARE

CLAIM TO HAVE KNOWN NEW MOVE TEN DAYS AGO.

By Associated Press.

New York, Jan. 31.—Great Britain and her allies are prepared to meet Germany's moves in her submarine campaign, it was authoritatively asserted in shipping circles here tonight.

The entente powers were convinced weeks ago that ruthless warfare with undersea boats would be decreed sooner or later and have known for ten days that the decision had been reached, it was said.

The ports of Liverpool and Bordeaux will be kept open at all hazards, British steamship representatives asserted, even if it becomes necessary to convey every merchant ship which crosses the Atlantic. The first step to be taken by the British admiralty, which virtually controls the merchant fleets of the allies, will be to arm every ship with guns fore and aft for defensive purposes, it was predicted.

To meet the emergency the British government has been assembling for months, it was said, a large fleet of small, fast cruisers to be used as "submarine chasers." This type of vessel has proven very effective against undersea boats, well informed shipping men declared.

A fleet of British lines declared the admiralty now has a fleet of 4,000 vessels available to keep the sea lanes clear of raiders and submarines and to act as convoys.

The admiralty has so arranged sailings and routes that it is explained, that they can be changed without delay to meet whatever circumstances may arise. The assertion was made that there will be no interruption in the sailing of the flags of the entente allies.

It was considered probable, however, that vessels flying neutral colors will be kept in port until instructions are received from their governments. This is certain to be true in the case of Dutch steamships.

A marked advance in marine insurance rates tomorrow was considered tonight to be inevitable. One-way rates today for American vessels was 7 per cent, while there was a 10 per cent war risk rate on ships clearing for Mediterranean ports.

LAST OF PERSHING'S FORCE STARTS NORTH

SOME OF TROOPS ALREADY HAVE REACHED UNITED STATES.

By Associated Press.

El Paso, Jan. 31.—Troops were blown at the field headquarters of the American expeditionary forces in Colonia Dublan at daybreak today by the veteran trumpeter of the cavalry detachment that had been acting as rear guard of General Pershing's column. These troops were the last to leave the field headquarters.

More than 200 refugees arrived in Columbus, N. M., today. Carranza Consul Soriano Bravo announced that all livestock and other property belonging to the refugees would be permitted to pass into the United States without the payment of export duty, providing the goods were returned to Mexico within three months.

The treaty with the United States is to become like the treaty with Belgium, "a mere scrap of paper." Germany is making a fatal mistake in the present and inviting sure defeat in the future.

New York Herald.

The major portion of the note published today is for consumption by the German peoples.

The government presides the idea of the Berlin government is that it can "bluff" an American president into a disgraceful surrender. The Berlin government may be mistaken.

New York Tribune.

We have submitted to outrage long enough. Peace with Germany would be purchased at too dear a price if it is to be purchased by compliance with the Kaiser's latest insulting instructions to us as to how we shall conduct our commerce with the entente nations.

Cincinnati Volksblatt.

The note of the German government is painful in view of the unpleasant possibilities that may result from it. It is only proper policy for the president to warn American citizens from allied vessels.

By Associated Press.

Austin, Jan. 31.—The question as to whether or not cities of Texas have power to regulate its Sunday amusements, such as the operation of moving pictures under article 1,480 of the penal code, was presented today to the court of criminal appeals for determination. In four cases appealed from Tarrant county. The four appellants are J. S. Phillips, J. J. Dillon, A. Zucarro, R. Cohen. Phillips was fined \$25 and the others \$50 on conviction of violating the Sunday law, despite the fact that they were complying with a city ordinance passed by the city of Fort Worth which permits the operation of moving pictures within certain hours. These cases were submitted on oral argument by John Baskin, representing the defendants, while the state was represented by J. Y. Cummings and County Attorney Marshall Spoons of Tarrant county. Mr. Baskin contended that the city ordinance of Fort Worth is valid and that the pictures shown in the city are in violation of the Sunday law. The state insists that this ordinance is invalid and the state law applies to the movies.

FOOD SOURING IN STOMACH CAUSES INDIGESTION, GAS

PAPE'S DIAPEPSIN ENDS ALL STOMACH DISTRESS IN FIVE MINUTES.

Wonder what upset your stomach—what portion of the food did the damage do you? Well, don't bother. If you are in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps, head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only 50c for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

New Labor Conditions to Follow After War

By Associated Press.

New York, Jan. 31.—All the countries at war must face new labor conditions in the future, the American industrial commission to France declared in another installment of its report on the industrial situation of that country, issued tonight.

"Millions of the best young men have been killed," said the commission, "and while the increased use of woman labor is of great value it cannot fully supply the need. Labor saving devices and improved machinery will be required as never before and designs which have been developed under the high labor costs and great production of this country will probably receive favorable consideration."

Another Steamer Lost.

London, Jan. 31.—The British steamer Artist, a vessel of 3,570 tons gross, was torpedoed on Saturday last. Sixteen men were picked up three days later in an open boat far from land and in weather of such severity that seven of the original twenty-three in the boat had died of wounds and exposure.

Mother-Made, Quick Acting Cough Syrup

Should be kept handy in every home—Easily Prepared and Costs Little.

Mothers, you'll never know what you are missing until you make up this inexpensive, quick-acting cough syrup and try it. Children love its pleasant taste and nothing else will loosen a cough or chest cold and heal the inflamed or swollen throat membranes with such ease and promptness. It's equally as good for grown-ups as for children.

This splendid cough syrup is made by pouring 2½ ounces of Pinex (50 cents worth), into a pint bottle and filling the bottle with plain granulated sugar syrup. This gives you a full pint—family supply—of much better cough remedy than you could buy ready-made for \$2.50—a clear saving of \$2.

The moment it touches the inflamed, cold-congested membranes that line the throat and air passages, the healing begins, the phlegm loosens, soreness leaves, cough spasms lessen and soon disappear altogether, thus ending a cough quicker than you ever thought possible. Hoarseness and ordinary coughs are conquered by it in 24 hours or less. Excellent for bronchitis, whooping cough, spasmodic croup, bronchial asthma or winter coughs.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with gualacal and is famous the world over for its quick healing effect on the membranes.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

OUCH! LUMBAGO?

Try Muterole. See How Quickly It Relieves

You just rub Muterole in briskly, and usually the pain is gone—a delicious, soothing comfort can be taken its place. Muterole is a clean, white ointment made with oil of mustard. Use it instead of mustard plaster. Will not blister.

Many doctors and nurses use Muterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pain, aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). Always dependable.

MAINE WOMEN TO BOYCOTT SPUDS

NATIONAL GUARDS WERE NOT IN SHAPE

ARMY OFFICERS WILL NOT SHIRK
ANY RESPONSIBILITY.

By Associated Press.

Washington, Jan. 31.—Major General Leonard Wood, recalled today for cross-examination before the senate universal training subcommittee, said army officers were not disposed to shirk responsibility for the war department's shortcomings in its direction of the national guard mobilization at the border, but reiterated that the guard system was in itself "vicious and indefensible" because of defects inherent in its organization.

Response to questions by Senator Lee of Maryland, General Wood admitted that the federal government's supply plans for the state troops collapsed ten days after they were called out and that in certain respects mobilization of the regulars, like the guard, failed to come up to expectations. He insisted, however, that a system "without a shadow of state interference" would have operated to much better effect and that the only ultimate solution to the problem would be universal service under exclusive federal control.

Tomorrow the committee will cross-examine Maj. Gen. Hugh L. Scott, the chief of staff, who in his testimony several weeks ago took a stand similar to that of General Wood.

CONGRESS TO BE ASKED TO TIME UP

By Associated Press.

New York, Jan. 31.—Congress will be asked to grant a public hearing on the plan to turn the clock forward one hour during the summer months under resolutions adopted by the national daylight saving convention at its closing session here today.

By unanimous vote the convention organized a new body, the National Daylight Savings Association, electing Marcus M. Marks, chairman of the convention and president of the borough of Manhattan, as president.

The resolutions introduced by Donald Tulloch, secretary of the employers' association of Worcester county, Massachusetts, alluded to President Wilson's letter read before the convention today endorsing the objects of the movement.

Chamber of Commerce Urged Legislation for Railroad Troubles

By Associated Press.

Washington, Jan. 31.—Immediate passage by congress of legislation to prevent railroad strikes and lockouts was urged today in a report by the railroad committee of the chamber of commerce of the United States. The report and an announcement of endorsement by the chamber's membership both of anti-strike measures and of public representation in settlement of rail disputes were features of the first day's sessions of the fifth annual convention of the chamber.

Farmers' Union Discusses Hog Marketing Plan

By Associated Press.

Port Worth, Tex., Jan. 31.—The establishment of a farmers' union commission firm to market hogs on the Port Worth yards was discussed at the state convention this morning and will be presented to the delegates formally in a resolution this afternoon. It is the purpose of the backers of this plan to supplement the blooded dairy stock campaign with a hog raising campaign.

SOLDIERS IN EUROPE FIND TRANSPORTATION FACILITIES POOR

By Associated Press.

Brooks, Transylvania, Jan. 28.—Long lines of refugees waiting patiently for a chance to get back to their homes farther in the mountains, hundreds if not thousands of soldiers returning from furloths and struggling to find even standing room in the irregular trains, time tables turned topsy-turvy and twenty to thirty car trains that begin their journey two hours behind time and end them from six hours to half a day behind schedule.

Such is one of the superficial effects of the Rumanian campaign. The Rumanians have long since been pushed back into and across their own country, but it will be weeks before the disturbance which they created will have subsided. It will be weeks before traffic and other conditions will again have resumed their normal status; weeks before the festively clad peasants shall all have found their way to their abandoned homes.

With the entrance of Rumania, war in reality came home to lower Hungary for the first time. It had contributed its quota of men to the Austrian army, but that it had done in peace times. The Russian advances into the Carpathians had left it unscathed. It was not until the Rumanians swept through the passes and occupied a portion of Transylvania that the Hungarians of their section really knew that they, too, were in a fight to the finish.

The majority of them were seized by the same panicky feeling that in the present war has seized the inhabitants of Belgium, of Poland, of East Prussia, of Serbia, and of every other district that has been invaded. Without stopping to consider whether they would or would not be molested by the enemy if they re-

mained they flooded away from their homes in untold thousands.

Now weeks after Transylvania is as free and safe from invasion as Berlin or Budapest, or Vienna are today, the interior cities of Hungary, in particular Budapest, are choked and crammed with fugitives who find getting back home still attended with difficulties. They fill every hotel to overflowing, they cluster up every train and choke most of the roads.

Their home coming, when such a thing finally is possible, is in general more fortunate than that of most fugitives, however, for the Rumanians were in Transylvania for so short a time that they destroyed little if anything, and the men and women and children of the district, though they find little left to eat, at least are able to move back into houses that are fairly intact.

LOCATION FOR CLUB WILL BE DISCUSSED

STOCKHOLDERS WILL HOLD A MEETING TONIGHT.

Stockholders of the Husco club will meet tonight at Hotel Raleigh to consider rebuilding the club house, recently burned, and to discuss whether or not a new site for the club is to be secured.

There will be full discussion of the problems before the stockholders, arising from the fire which on January 4 swept the splendid club house at Twenty-ninth and Sanger avenue out of existence.

The stockholders are admittedly divided on the question of location, some wanting to rebuild on the old site, others thinking it wise to move out a little further west from the present location, others yet wanting to go to the sandier lands east of the Brazos river.

More Merchandise Is Claimed by Merchants; Five Complaints Filed

Considerable more of the merchandise found in the possession of Allen Wesley and Robert Allen, arrested by the sheriff's department Tuesday, has been identified.

Merchants from Bessie, Abbott and other towns visited the court house Wednesday and claimed some of the property.

The depot ticket agent at South Bosque, E. E. Hancock, positively identified a watch that was taken a few weeks ago when the station was burglarized.

Five complaints against each of the two youths were filed in the justice court, each charging burglary.

Ordinance Against Stock and Chickens Running at Large Will Be Enforced

With the advent of vacant lot gardening in Waco and with a keener appreciation than heretofore of the flower yards in the city, there has come a tightening up of regulations regarding the running at large of stock in the outskirts. It was announced yesterday by those who are pushing the work of vacant lot gardening that all persons allowing stock or chickens to run out will have to meet the penalties imposed by the city ordinance.

There are ordinances not only against loose stock, but against chickens. There has been some complaint from the sections on the borders of the city regarding loose stock recently.

Ad Club May Bring New York Lecturer on Advertising Here

Discussion of the advisability of bringing Frank Stockdale, official lecturer of the Associated Ad Clubs of the World, to speak to the Waco Ad club will be entered into tonight at the regular meeting of the Ad club members to be held, beginning at 6:30 o'clock at the Hotel Raleigh. Mr. Stockdale is of New York and will lecture, if brought here, on advertising in its many phases.

Miss Pauline McCauley of the Waco public library will speak at this meeting on "What the Library Has for the Advertiser." Other talks will be made.

Stops Over in Waco Especially to Make Payment of Poll Tax

C. W. Payne, transportation expert of the attorney general's department at Austin, stopped over in Waco yesterday to pay his poll tax and to represent the department in an interstate commerce commission hearing.

Mr. Payne said last night that he was glad to be in Waco again. "It is a much talked of town," declared Mr. Payne. "I hope she will land the state railroad extension from Palestine in case it is decided to extend this road."

Believes Interurban Will Be Extended Soon

That the interurban will soon be built southward out of Waco, if the proper co-operation is had here, was stated yesterday by Director W. W. Seley of the Southern Traction company, which Tuesday was merged with the Texas Traction company at Dallas.

Mr. Seley said that in his judgment matters were to be arranged to go south just as soon as possible, and the belief here is that a proposition on this matter may come to light within the next several weeks. Mr. Seley said that the consolidation question has been occupying the time and attention of President J. F. Strickland for some time, but that now this matter will soon be out of the way, permitting attention to be given the extension southward out of Waco.

Hearing of Mandamus Is Moved Up to March 3

According to advices received in Waco the third district court of appeals at Austin has advanced the case involving the writ of mandamus granted last Thursday afternoon by Judge Richard L. Munroe at Marlin, giving E. W. Gaffney the right to examine the books and records of the Amicable Life Insurance company to February 3. The hearing was originally set for February 7.

Judge Munroe is cited to appear at the hearing and show cause why his order should not be set aside.

Are You Intoxicated?

The question is not as impertinent as it sounds. You may be a real teetotaler and yet be "intoxicated"—that is, poisoned by the gases that come from imperfect digestion. The products of food putrefaction are taken up by the blood and often poison the entire system. Cut out meats and starchy foods for a while. Eat Shredded Wheat with milk or cream for breakfast; eat it with stewed fruits and green vegetables for dinner or supper. It will cure auto-intoxication and make a new man of you. All the meat of the whole wheat in a digestible form. A perfect meal at lowest cost. Made at Niagara Falls, N. Y.

LIONS TO HAVE ROSE BANQUET AT RALEIGH NEXT FRIDAY NIGHT

REGULAR WEDNESDAY MEET IS
POSTPONED—TO PLAN FOR
"ROSE PLANTING DAY."

Waco Lions will not hold their regular weekly meeting next Wednesday noon at the Hotel Raleigh but will on the following Friday night hold their "Rose Banquet." This will be an elaborate affair and will be held at the Raleigh beginning at 8 o'clock.

Heads of the various organizations of the city will be special guests of the Lions club on this occasion. For the purpose of furthering interest in "Rose Planting Day," which is February 22, a publicity campaign will be discussed and launched at this meeting. The date mentioned has been officially designated by the city commission as "Rose Planting Day" and is expected to be observed generally throughout the entire city.

School children will be urged to plant one or more roses on this day. Appropriate ceremonies will be held by the Lions who will plant roses in some park of the city. School children will be urged to take part through the means of this publicity campaign.

L. C. Alexander is chairman of a committee of seven or eight named by the Lions to advance and promote rose planting day in Waco.

Hard Work Is Creed of Concert Soprano

Miss May Peterson, noted concert soprano, who will sing here Monday night at Carroll chapel, Baylor university, under the auspices of the Lutheran club, was born in Oshkosh, Wis.

She is the daughter of a traveling evangelist. At the age of 7 she sang at one of the meetings her father conducted, and so successful was she that thereafter she went with him to sing at his services. When she was 13, her father died, leaving a widow and seven children and she was expected to do her share toward the support of the family. Then she became the organist of one of the churches in Oshkosh.

For two years she held the position, when at the age of 15 she had \$17 saved. She went to Chicago then and found work in a choir at \$2 a Sunday, but this was hardly sufficient to live on, so she worked up a music class of

her own and secured work as an accompanist in exchange for vocal lessons from several of the best teachers in Chicago. There she remained until she had saved \$300. She went to New York and from there bought a second ticket to Florence, and here she began the study first of the Italian language, earning her way by whatever employment she could find. Once she taught the Italian people diaphragmatic breathing.

"Miss Peterson has a way with her," said some one who met her. "I am quite sure she could sell roller skates to a man without legs." The next winter she made her breathing lessons pay for her vocal lessons.

REMEMBER THE ORCHARD.

When farm diversification is thought of, the orchard shouldn't be left out of mind. The orchard deserves a more important place in Texas than it has at present. When properly cared for, the orchard is a source of wealth and health. The production of fruit in Texas has decreased in recent years. Peaches are grown in Texas more than any other fruit, yet 75 per cent of the Texas farms are minus peach trees. Statistics show that about 60 per cent of the farms in the Lone Star state have no fruit trees of any kind on them. Blackberries and dewberries do well over a large part of the state, yet only about 1.3 per cent of Texas farms produce these crops. Many sections of the state are adapted to growing strawberries, but only 3 per cent of the farmers raise them. There is room on every farm in Texas for some more good fruit trees. There isn't a farm in the entire state, which can be called real farm, where fruit trees of some variety will not grow and bear. The table below shows the amount of fruit on Texas farms. Whoever planted a tree at the proper time under right conditions and regretted it! No one.

Fruit	Num. of Farms	Per Cent of Total
Strawberries	1,423	417,700 1.3
Blackberries and dewberries	5,459	417,700 3.3
Apples	56,055	417,700 8.0
Peaches	108,959	417,700 25.0
Pears	40,897	417,700 8.0
Plums and prunes	46,032	417,700 11.0
Pecans	10,519	417,700 2.0

"WHAT ARE WE GOING TO DO?"

Five hundred women of the underworld went to the Central Methodist church of San Francisco to hear Rev. Paul Smith preach. The minister was the target after the sermon for such questions as these, propounded by the women of the tenderloin: "What are we going to do? What can you do for us?" It is not for the minister to answer to the same questions. For the world has been trying to solve the problems. The problem of prostitution is the problem of all problems. The man or men who solve it and eradicate the evils will have done more for humanity than any other man or group of men, since the time of Christ. The district from which the women came has the unhappiest and most degraded class in the world. But they are human beings. Brutalized for the most part, treated with coarse indignities, deprived of the birthright of genuine love, of wifehood and of motherhood, stricken with disease and doomed to an early death, is this class of society. Yet, they are human. "What can we do? What can you do about it?" These questions are facing every thinking man and woman of this generation, as those of all past, and they will be facing the men and women of the next. Surely the questions asked by the women of the underworld in San Francisco are the ones asked the world over. Truly, they make up the problem of problems. What are they to do?

President Wilson broke another record when he walked from the White House to the treasury department to see Secretary McAdoo. The fact that the president smashed a record, or broke a long-time custom or failed to observe an established precedent, causes little surprise. Whenever the president feels like it, and when he thinks it for the best public interest he makes records of his own.

From a half-acre patch a man in Crockett sold \$53 worth of turnips and greens and has still some left for the market. The half acre of ground was lying idle, a left-over spot, and he wondered what to do with it. There are many small, idle pieces of ground on the farms in Texas which ought to be producing something. The Crockett man has shown what a farmer can do with a small, idle piece of ground he doesn't know what to do with.

Despite the efforts of a slogan committee from the junior commercial organization, the matter of a slogan for Waco is still in doubt, but at least on the swimming pool project it should be a certainty—Waco Will.

Will "The Little Girl Next Door" Be Shown in Waco? Censors to Decide

Whether or not the film, "The Little Girl Next Door," will be shown in Waco for the second time probably will be decided this afternoon when a censor board will view the photoplay at the Rex theatre. This censor board may be appointed at the regular meeting of the city commission this morning, according to the action taken.

Men and women from the various organizations of the city will be chosen to compose this board of censors, according to Mayor John Dollins last night. The mayor is acting along the lines taken by officials of other Texas cities, namely, Fort Worth and Dallas, according to his expression last night.

Many are wondering whether or not, after approximately 3,000 Waco persons have already seen the film, that the picture will be shown here again. If it is, in all probability it will have a better patronage than it did on its first appearance here.

Need of Supervised Playgrounds Brought Out in Two Addresses

Following up the plan of the Waco Parent-Teachers' association for beginning the work of supervised playgrounds in Waco next spring or summer, an address was delivered yesterday afternoon at 3:30 o'clock at the Waco high school auditorium by Myron A. Kesner of Dallas, supervisor of playgrounds and parks for that city.

Not only was the attendance large, but most of the women's organizations of Waco were represented. The speaker was introduced by Mrs. W. O. Wilkes. He spoke along lines similar to those followed in his address at noon yesterday to the Lions' club. The need of supervised playgrounds was strongly emphasized by the speaker.

The present intention of the women of Waco is to try out the supervised playgrounds here to a certain extent during the year.

MARLIN

"THE CARLSBAD OF AMERICA."

R. C. Fain, Correspondent, Phone 493.

Marlin, Jan. 31.—A quintette of ball tossers from the Rosebud high school invaded Marlin last night and engaged the Marlin high school quintette in a battle for supremacy in the art of the fascinating game of basketball and succeeded in making the game interesting enough to make little tickling sensations hurdle over each other as they raced and chased up and down one's spinal column. The game was played in ten-minute quarters and the first of these went to the locals by a score of 14 to 7, while the first half ended with the visitors 15 and the locals 18. The last half was an even fight and the game was too close to be comfortable for the locals, who picked up speed in the last three minutes of play and finished with a lead of five points, the final score being Marlin 27, Rosebud 22. The game was featured with the splendid playing of J. C. Fountain Jr. at guard, and Robert Ernst at center for the locals, while Hilliard, who played at center, starred for the visitors. Fountain made himself conspicuous by being in every play and had the art of being in the right place at the right time throughout the game. The game was cleanly fought, each side drawing but few penalties. A game has been arranged for next Saturday night with the Reagan high school. This will naturally be of most interesting of the season on account of the friendly rivalry that has existed for several years between the basketball teams of these two schools. The line-up for last night's game was: Rosebud—Guards, Ellison and Able; center, Hilliard; forwards, Harlan and Doss. Marlin—Guards, Fountain and Onkes; center, Ernst; forwards, Levy and Curry. Referee, Burke of Reagan.

The First National bank of Rosebud was awarded a judgment amounting to approximately \$1,000 yesterday in a suit that had occupied considerable time of the district court. The suit was styled First National Bank of Rosebud vs. George K. Foster et al. and was a suit on note and was tried before Judge Munroe.

Thrifty Eyes for Thrifty People.

Thrift is an endowment of good eyesight. Thriftiness and defective sight do not go hand in hand. If your eyes tire, cause pains in back of head, neuralgia in temples, nervousness, sick stomach and sleeplessness, you are greatly handicapped in life's pursuits.

THRIFTY EYES MAKE THRIFTY PEOPLE.

If you would have thrifty eyes you must relieve them of any and all optical errors. And the best and most satisfactory way to insure your eyes against physical ailments is to have them examined at the Exclusive Optical Store. Here you will find one of the finest and most modern equipped establishments in the United States; also a man who has successfully prescribed glasses for over 25,000 people living in all parts of Texas. HUSBAND AND WIFE BOTH WELL AFTER LONG SUFFERING

WACO MAIL CARRIER SAYS TANLAC IS ALL THAT'S CLAIMED FOR IT AND IS NOW HIS FAMILY MEDICINE.

THEIR HEALTH WAS WRETCHED

W. W. Barrett Says They Tried Everything They Could Find for Several Years, but Couldn't Get Relief Until They Took Tanlac.

"Tanlac has done wonders for my wife and me and in fact, it is the only medicine that has ever given us any relief," said William W. Barrett of Axtell, Texas, recently in a conversation with the Tanlac representative in Morrison's Old Corner Drug Store. Mr. Barrett is mail carrier for rural free delivery route No. 2 of Axtell and he is bought in contact with a large number of people and is very well known all through that neighborhood.

"I have had dyspepsia and my wife had chronic stomach trouble for a number of years," he continued. "And we tried dozens of so-called remedies without getting the least bit of benefit that we could notice. My wife would have gas on her stomach after eating and she lost her appetite most entirely. She would complain of awful headaches that would keep her all out of sorts and just worry her most all the time. She got mighty nervous and unstrung and she was restless and couldn't sleep at all well of nights. She was getting more and more run-down every day and, as I said, there wasn't anything seemed to do her any good until she tried Tanlac."

"After taking it just a short while, she started to improve and she has kept on getting better ever since. She has gotten so she can eat most anything now—things she didn't dare touch before—and her appetite is excellent. She isn't at all nervous any more and she sleeps like a child. All those bad symptoms are gone—no more headaches and no more discomfort after eating. She is just as grateful as she can be for what Tanlac has done for her."

"I had dyspepsia so bad myself that whenever I ate any greasy food it would sour on my stomach and form gas that would make me swell up and have pains of the worst kind. I wouldn't be able to keep the food on my stomach, but would just spit it up. I worried along for several years trying to get some relief, but nothing seemed to do any good until I got hold of Tanlac. It sure has done the work. I am now in my third bottle and I have just had three more wrapped up to take home. We don't think we will need it all, as both my wife and I are now practically well, but we want to make sure the treatment is finished and we want to keep some on hand, too. Tanlac is our family medicine now, you know."

"Tanlac has taken away every trace of that dyspepsia and I don't have any more bad feelings after eating. I just go ahead and eat anything put on the table and I can enjoy it like any man. I have more strength and energy than I have had for a mighty long time. My wife and I will praise Tanlac the longest day we live because we think it is a wonderful medicine and it is full of merit. I just stopped in to tell you about it because I think I ought to pass the good word on and let others know that there is one medicine that will do everything they claim for it and that medicine is Tanlac."

Tanlac is sold in Waco by Morrison's Old Corner Drug Store, under the personal direction of a special Tanlac representative.—Adv.

Use Zemo for Eczema

Never mind how often you have tried and failed, you can stop burning, itching eczema quickly by applying a little zemo furnished by any druggist for 25c. Extra large bottle, \$1.00. Healing begins the moment zemo is applied. In a short time usually every trace of eczema, tetter, pimples, rash, black heads and similar skin diseases will be removed.

For clearing the skin and making it vigorously healthy, always use zemo, the penetrating, antiseptic liquid. It is not a greasy salve and it does not stain. When others fail it is the one dependable treatment for skin troubles of all kinds.

Burnett Company Here Is Given Contract for Hotel at San Angelo

A contract was closed in Waco yesterday afternoon by C. C. McBurnett of San Angelo, through the firm of George Burnett company, Waco architects, for the new \$175,000 fireproof hotel to be erected at San Angelo by Mr. McBurnett. The awarding of the work of making plans for a great hotel at Amarillo was also given this company.

The W. C. Hedrick Construction company of Dallas secured the general contract for the McBurnett hotel at San Angelo, for \$175,000, while the heating and plumbing contracts were awarded to the Hollinger-Petty company of San Angelo and Hill Brothers & Co., of Waco. The San Angelo hotel will have 150 rooms and will be seven stories high.

Plans for the Amarillo hotel to be made by George Burnett company here are to be made for T. S. Mitchell of Amarillo, who will erect the hotel there. This building will have 150 rooms and will cost about \$150,000. Mr. Mitchell is known in Waco, as he was reared in Bosque county, adjoining McLennan. He has been in Amarillo about ten years.

Mr. McBurnett, George Burnett and a number of the material men who secured contracts in connection with the San Angelo hotel, enjoyed a luncheon last night at the Manhattan cafe.

Y. M. B. L. Committee May Visit Lock and Dam

It is probable that a visit will be paid to the lock and dam below Waco in a short time by a committee from the Y. M. B. L., as the work of driving steel piling is said to be so far along that the finishing touches may be given shortly.

The Y. M. B. L. has been planning to have a suitable observance when the lock and dam will have been completed, marking the impounding of water which will be backed up in front of this city. Driving of steel piling has been in progress for several weeks, in charge of Captain Harris.

Clearing of sites and building railroad spurs for the construction of two additional locks and dams below Waco has commenced. One of these will be built at High Bank below Marlin and the other at Goodland near Hearne. It is expected that work on these locks and dams will be put under way by the United States government engineers in a short time, thus causing many people to realize that light draught navigation of the Brazos river soon is to become a reality.

Postpone Bal Poudre, to Be Held February 8

Postponement is announced of the bal poudre, to be given by the Henry Downe chapter, Daughters of the American Revolution. The time for this event has been fixed for Thursday night, February 8, instead of tonight as originally announced.

The ball will be given in the Progress club rooms, corner of Eighth and Austin streets. The proceeds of the ball will be used in placing a bronze tablet at the old Waco spring, south of the suspension bridge, marking permanently this historic and sacred spot.

Merchants' Thrift Campaign Will Formally Open Today

The formal opening of the Merchants' Thrift Campaign starts with this issue of the Morning News. The merchants who have taken part in it have done so because they think it is a good thing both for their respective businesses, and incidentally, to take a part in the great movement that is just a year old to make 100,000,000 Americans take stock, so to speak, with reference to the cardinal principles of life; that is to say, what we eat, what we wear, what we use, what we save and what we do. It takes in the entire family.

You no doubt have been thinking about thrift and planning to take advantage of it in that you will fit some of its lessons into your life.

How far have you gone?

What Have You Planned?

Possibly you have noticed that when the neighbor's ashes next door are hauled away, there are only cinders and ashes in the can; and you have decided that, starting some time during this thrift campaign, your ash can henceforth will contain only ashes instead of that large proportion of "black diamonds" that you have been wasting for a long time. You have just been putting the matter off, but now you have decided that during the thrift campaign you will start a future in which the alarm clock is going to be set for fifteen minutes earlier so as to save that coal.

On the other hand, your decision to start a thrift habit during this thrift campaign may be that of being more thrifty with your health, and taking that exercise in the morning before you start that period of confinement at your desk for the long day.

Your thought for thrift may include thrift for others. You have come to the full realization that one should start young the practice of thrift.

Thrift Influence.

Knowing that this thrift campaign was coming, you may have been encouraging that little fellow in your home to sequester 10c out of his 25c allowance each week so that during this thrift campaign he is going to have a celebration by starting a savings account of his own.

You may have decided that you are going to nourish his mind early in life with practical thrift—a thrift influence the benefit of which you failed to receive.

Yes—and possibly your wife has been interested through reading the newspapers, and listening to the thrift plans of others. "Altogether" you have decided that during the thrift campaign she is going to start that household cost accounting book that she has put off for these many years. She says she is going to know "just where the money goes."

Everybody knows that there are a thousand ways to practice thrift. In every direction one turns there is opportunity for greater efficiency, and that's just what thrift is.

Thrift brings people together in a better understanding, and if better understanding is the result of this thrift campaign then the merchants who have made it possible for this thirty days' or so thrift campaign, then they have accomplished something for their city and their people, which should react in many personal and business ways.

When every one, say in Waco, registers one 12¢ action in the way of a big-hearted, whole-souled, thrift habit it will run into stupendous figures. Be sure you do your part during the campaign.

There is a lot of inspiration in joining a multitude, especially if all are to be benefited.

Have you decided on your thrift action? You should.

It will make every day thereafter more thrifty. The best habits we ever form have small beginnings. This

DOES YOUR HOME REFLECT THRIFT

"A Man's Home Is His Castle"

But it is much more than that to his wife, though many men do not appreciate the fact. ¶ As we all have but the one life to live on this earth and as we spend most of it in our homes, HOME FURNISHINGS should be well in the minds of everyone that pretends to have a home. ¶ Our stock is selected with the idea in view that those who believe that there's "NO PLACE LIKE HOME" can find their ideal of a home exemplified here. ¶ HAD YOU NOTICED that the homes of the really thrifty are generally the most comfortable?

MUNICIPAL FLAG MAY BE ADOPTED TODAY

MATTER TO BE TAKEN UP AT COMMISSION MEET.

For the purpose of having a flag for Waco adopted, the municipal flag committee of the Rotary club will appear before the city commission in regular session this morning at 9:30 o'clock. For some time the matter of a decision on this matter has been held up.

Probably 100 designs were submitted in the Rotarians' contest some months ago. Out of this number three designs were chosen as the best.

The flag that won the first prize has red, white and blue stripes of equal width. At the extreme upper left is a large outline of Texas in gold. In the center of the state is a heart, indicating Waco, the "Heart of Texas." Running laterally through this heart is a blue line, showing the Brazos river. "Waco" in large blue letters is printed on the middle white stripe of the flag.

When the municipal flag is chosen, orders will be placed for its manufacture in large numbers. They will be erected over the city.

Judge Kingsbury Recites History to Waco Voters

On the 30th day of October, 1916, I was elected by the commissioners and mayor to succeed the Hon. Geo. W. Cole, who resigned from the office of recorder. Since that date I have tried and disposed of more than 1,250 cases. From the hundreds of judgments of conviction, there has been but one case appealed. On the docket of the recorder's court appears No. 16758, the State of Texas vs. P. D. Humphreys, the charge against the defendant being driving an automobile at a rate of speed greater than that allowed by law. This case was tried January 5, 1917, and the defendant, Humphreys, was represented by Attorney Chas. B. Braun. Mr. Humphreys is a prominent automobile man and a very fine gentleman. After hearing the testimony, I fined Mr. Humphreys \$20. His counsel seemed to be very much disappointed at the judgment of the court and the defendant was also very much displeased. Attorney Braun immediately gave notice of appeal to the county court of McLennan county, Texas. All this happened on the 8th day of January, 1917.

In the Waco Times-Herald of January 12th, 1917, two days thereafter, appeared the announcement of Attorney Chas. B. Braun for the office of recorder. This is a matter of judicial and contemporaneous history. I leave it to the profession to determine whether or not the announcement for recorder on the 12th is a part of the res-gesta of the trial and conviction of the 8th.

Doyle Will Captain the Chicago Cubs

By Associated Press.
Jacksonville, Fla., Jan. 31.—Larry Doyle, second baseman of the Chicago National league club, whose home is in this city, today received a letter from Fred Mitchell, manager of the club, appointing Doyle field captain of the Cubs for the season of 1917.

FAMOUS AMERICAN TENOR NOW ON COLUMBIA STAFF

A notable addition to the Columbia staff of exclusive tenors is the American tenor, James Harrod. Mr. Harrod is not only the possessor of a splendid voice, but has at his command a finished technique that was inspired by the tutelage of one of the world's greatest master-singers—Jean de Reszke. When Harrod sang at a London recital Jenny Lind remarked the similarity of the tenor's voice to that of her master. "My sweetheart When a Boy" is one of Mr. Harrod's initial records. And this poetic reverie—a reflection of the universal dream of a first love upon whose every word hung someone's heart—well serves to display Mr. Harrod's fine vocal achievements and power of expression.

Those who have never heard Kathleen Parlow sing a capriccio will find unbounded delight in her most recent Columbia recording—the "Fantasia" from "Faust." Never has more bewitchingly capricious melody been evoked from the strings of a violin. With rare delicacy this wonderful virtuoso introduces a theme of chimerical lightness that flashes forth like a stray firefly. Then the whimsical bow runs the whole gamut of eccentric melody—as mysterious as the sounds of a midnight midnight—and then lapses into pensive dreams.

The unforgettable "Garden Scene" music is indeed a tone-ideal of romantic love-dreams as played by the incomparable Parlow.

DEATH IN RING MAY HURT BOXING RULES

NEW YORK GOVERNOR LIKELY TO STOP 10-ROUND BOUTS.

By Associated Press.
New York, Jan. 31.—Boxing promoters expressed fears today that the game would suffer further restrictions at the hands of the state legislature. It was reported that Governor Whitman intended to ask the legislature to repeal the present law which permits ten-round bouts without a decision.

The rumor was without confirmation, however, either in Albany or New York. Developments in the boxing game expected to affect the future of the sport include the investigation now in progress of charges against Frederick A. Wesick, chairman of the state athletic commission, and the death of Stephen McDonald, who was killed last night in the first round of a professional fight at Albany.

A number of legislators saw the bout, in which McDonald was knocked out by Toddy Hicks with a blow under the heart. Hicks, his seconds, the referee and promoters of the bout are held on charges of manslaughter, second degree. An autopsy today will determine whether McDonald's death was due to the blow or to injuries received when he fell against the ropes.

The Wack investigation will be continued next Monday in New York. The chairman of the athletic commission is charged with attempting extortion in seeking a bribe from boxing promoters.

National League Head Favors Daylight Move

By Associated Press.
New York, Jan. 31.—Baseball "fans" should get behind the proposition to turn the clocks of the country ahead an hour for five months, said President John K. Tener of the National baseball league, in his address at the National Daylight Saving convention here today. It would have the effect, he said, of giving more time to millions of people for the physical and mental enjoyment derived from every form of amusement that is permissible only during daylight.

What Is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It Is a Blood Infection and Can Be Permanently Relieved—Don't Suffer This Winter.

Rheumatism means that the blood has become saturated with uric acid poison.

It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salve and by rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into

WACO HIGH IS READY FOR GAME WITH FORT WORTH TEAM TONIGHT

LOCALS ARE CONFIDENT OF VICTORY OVER PANTHERITES. GAME TO BE AT BAYLOR.

Waco high school basketball players are ready and eager for the game tonight at the Baylor girls' gymnasium for the contest with the basketball aggregation of Fort Worth high school. Coach Smith said last night that he was confident his charges would be victorious in the game.

Following is the line-up for the Waco team for tonight: Wohlberg and Mearty, forwards; Knebel, center; Hill and Brown, guards.

This is the last game that Knebel and Hill will play with the Waco high school team, as they graduate in the mid-winter class tomorrow night.

Auditorium Program Again Surpasses Previous Bills

"MONDAY MORNING" IS ORIGINAL AND PLEASING.

It is a strong statement to say that a theatrical performance is better than anything that has been seen in Waco so far this season on the Majestic circuit; but this may be said truthfully of the bill at the Auditorium this week. Unquestionably the performance and the capacity audience last night was liberal in its applause and everybody left seemingly in a happy mood.

Low Madden and company in "Monday Morning," had the well-earned distinction of head-liner. This is an original and pleasing production of a peek behind the scenes. It is really necessary for one to see the artful acting and the many unthinkable glimpses of the other side of the stage, in order to have any true idea of this hilarious exhibition.

The Alaska drama by Harry Girard and company is a high-class production, reflecting life in the frozen north. Aided by typical scenery, a quartette of splendid male voices and the uncanny "Wall of an Eskimo," Mr. Girard has so interwoven music, humor and pathos into this brief presentation as to make it seem much shorter than it really is.

Good One-Act Playlet. Raymond J. and, as the former salesman, and Elizabeth Shirley as his prospective customer for ladies' goods, present in "The Homestead Comedy" one of the best one-act playlets that have ever been shown in Waco. There is much good acting, some philosophy and a whole lot of humor in this feature.

Gertrude Van Dyke, with Vincent Van Dyke, in a Musical Melange, ingratiated themselves with the audience from their first appearance.

Josephine Davis, the Bewitching Comedienne, easily walked away with individual honors. The audience seemed pleased with her at first; then fascinated, and at last it was completely captivated by her charm of manner and class, until she declined to respond to their hearty cheers.

The Zarrell Troupe in the closing number of this unusual bill. They have really found something new in the art of gymnastics, and their originality is equally new to their skill.

A performance like this provides entertainment for the most critical and exacting, and all who are prudent and fortunate enough to see its many good features will have something unusually pleasant to think and talk about for some time to come.

Hamlet Sanest Character in All Drama.

Critics who venture to suggest that Hamlet, the Prince of Denmark, was intended by Shakespeare to represent a man whose mind was deranged or on the verge of breaking down as the result of the circumstances surrounding him in the period of his life treated in the drama, meet in John E. Kellard, the eminent actor of Shakespearean roles, an artist who has absolute conviction that the prince is the sanest character in all art and wiser than most human beings.

"The question of the soundness and sanity of the man's mind," he says, "is shown by his ability to reason logically, an ability that is not possessed by one man in a thousand. There is not a character in dramatic literature as sane as Hamlet. That is the reason he is so much quoted. How the so-called critics can continually wrangle about the sanity or insanity of Hamlet is beyond my comprehension. Shakespeare tells the characteristics of his stage personages very clearly in the lines of his plays. He has done this with the character of Hamlet, too. Hamlet expressly says that he may put on an antic disposition, and he warns those people who are with him and makes them swear not to betray him by showing it is put on. The humanity of the man—his nature—makes him a marked man which only proves that he is more human and honest than the rest. He is the only logical person in the group. His reasoning is sounder than anyone else's in the play and yet his sanity is being continually questioned by critics. All that Shakespeare requires is intelligent treatment.

"All human beings act in different ways, only some are more emotional and imaginative. Hamlet is no more insane—not nearly so—as Polonius, who thinks he knows everything and is yet a fool.

"A man may be within a foot of Niagara Falls and yet not be in the whirlpool. So with the mind, insanity is a loss of reason, not a different state of mind.

Discussion turned upon what the future had in store for the plays of the master dramatist. "The possibilities of the future all depend on who plays them. Shakespeare is sold more than any book in the world, except the Bible, and this would not be so if his plays were not relished in the performance. I do not believe the public have the faintest idea of how much pre-

tense there has been in the performance of these plays."

Rose Stahl.

Rose Stahl made such a decided sensation in "The Chorus Lady" that it was said another play would never be found giving him an equal opportunity to display her genius as a portrayal of types. Such a play was discovered in "Maggie Pepper" and far more than 1,000 times Miss Stahl appeared in the role of the department store saleslady. Now another character which fits Miss Stahl like a glove has been found for her. It is that of Emma McChesney in the new American comedy success, "Our Miss McChesney," and Miss Stahl will be seen here at the Auditorium February 5 in this play. It is a dramatization of Miss Ferber's delightful Emma McChesney stories. Mrs. McChesney is a traveling saleswoman for the Featherloom petticoat and she is a clever one at that. She has not entered the business world because of her love of it, but because she wishes to send her son, Jack McChesney, through college. How Jack disappoints her but finally makes a man of himself is told in an interesting manner. Not only does Mrs. McChesney have Jack's affairs to look after but she also rises to the emergency when the petticoat company is threatened with bankruptcy.

HIPPODROME.

"The Great Secret."

The master mind back of the great Metro serial, "The Great Secret" starring Francis X. Bushman and Beverly Payne and showing at the Hippodrome theatre today only, is William Christy Cabanne, the director. Fred de Gre-

sac wrote the story in story form, but Mr. Cabanne is the man who adapted it to the screen and made every chapter complete for picture purposes. This man's rise as a director has meteoric, but he is a fixed star now. In that field, Mr. Cabanne is the man who adapted it to the screen and made every chapter complete for picture purposes. This man's rise as a director has meteoric, but he is a fixed star now. In that field, Mr. Cabanne is the man who adapted it to the screen and made every chapter complete for picture purposes.

Lillian Gish and other Fine Arts stars. He has made of "The Great Secret" a production that will be remembered for its smooth and catchy construction, its sub-titles, and its action of the most consistent and exciting sort. Mr. Bushman plays no less than seven characters in his part, being disguised six times. Miss Payne is a modern New York girl, and is beautiful and convincing, as usual. In the part of the adventures of a young millionaire clubman when he interferes with a gang of ruffians who try to kidnap a girl who is a stranger to him. There were fifteen chapters of the absorbing story, each chapter more exciting and interesting than the last.

SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

IF LITTLE STOMACH IS SOUR, LIVER TORPID OR BOWELS CLOGGED.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can cause no injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

THE EXERCISE OF TRUE THRIFT

Is at once apparent in a man's appearance. True Thrift does not allow anyone to buy clothes which are the cheapest in first cost. Nor does it permit one to be extravagant.

In Buying Clothes There Are Two Limits

There is a limit BELOW which it is unsafe to ever go—and another point ABOVE which it is extravagant to venture. The wise man—the truly thrifty man—pays enough to get good values and not so much that he is overcharged.

Executive Committee Board of Waco Welfare League Discusses Work

Reports on work in hand and of plans for future operations were discussed at a meeting yesterday afternoon of the board of the executive

committee of the Waco Welfare league, held in the Chamber of Commerce rooms yesterday afternoon at 4 o'clock.

Plans are on foot for much active work later. The committee talked over these plans. Chairman W. J. Neale presided over the meeting.

Present were W. J. Neale, E. L. Fulkerson, Professor Matras, Mrs. John F. Rowe, Mrs. L. Aubrey, Mrs. R. G. Patton and Mrs. N. B. Kent.

What Texas Folks Say. It's the Same Everywhere

Mrs. P. B. Dillingham, who resides at 112 South Twelfth street, Temple, Texas, says: "For several years I suffered with lung trouble, and also stomach trouble, until I began taking Dr. Pierce's Golden Medical Discovery, which was the only medicine that helped me, and I have never been bothered with either since. I hope that some other sufferer will try it."

Mr. W. M. Powell of 116 Oleander street, San Antonio, Texas, says: "I have used Dr. Pierce's Golden Medical Discovery and find it a good tonic and recommend it to friends who need a blood tonic. I think it is one of the best medicines in the world and I cannot say enough for what it has done for me."

Dr. Pierce's Golden Medical Discovery or Favorite Prescription can be obtained in liquid or tablet form and are herbal remedies without alcohol or opium. Their ingredients are printed on the wrapper. If not obtainable at your dealer's send \$1 to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large package of tablets, or 50c for smaller size.

Mrs. R. L. Frazier of Beaumont, Texas, Box 1051, says: "I used Dr. Pierce's Favorite Prescription and find it one of the finest remedies I ever tried for troubles peculiar to women. It will cure any case if properly used. I always recommend it to ladies in delicate health."

Mr. P. C. Smith, 1716 West Third street, Texarkana, Texas, says: "I

MRS. P. B. DILLINGHAM.

find the 'Pleasant Pellets' the best remedy I have ever tried.

"All Dr. Pierce's remedies are good if directions are followed implicitly." Pleasant Pellets are made up of the May-apple, also leaves and jalap. This well known pellet was made up nearly fifty years ago, by Dr. Pierce, and can be obtained from almost any apothecary—simply ask for Dr. Pierce's Pleasant Pellets.

If not obtainable at your dealer's send 25c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and he will supply you by mail.

Change in Date of Symposium of Arts Announced by Club

The Waco Woman's Press club has changed the date of the symposium of arts which is to be given under the auspices of this organization from February 13 to February 17.

It is expected that 200 young ladies will participate in the event. The construction of the program is expected to make the occasion one of unusual interest. There will be presented one act each from "The Flying Dutchman," "Ruth," from Omar, and "Minerva," the Goddess of Wisdom, with her attendants. A striking tableau series, closing with a Hawaiian act which will have the Hawaiian setting, and will be accompanied by the weird music of this mystic isle will also be a part of the program.
